POWER ENCLOSURES AND JUNCTION BOXES

ENCLOSURES AND POWER EQUIPMENT GEHÄUSE FÜR ELEKTRO ZUBEHÖR

- Power sockets are made of such materials and in such a way as to guarantee the reliability regardless of weather conditions and risks associated with the accidental hit a hard object.
- Cases distribution strength RS have a degree of protection IP 65, and their high rate of impact resistance IK 08 amounting to ensure durability and reliability for many years.
- Many variants of customisations.

JUNCTION BOXES AND HERMETIC BOXES ANSCHLUSSDOSEN UND WASSERDICHT E BOXEN

- Junction boxes are characterized by innovative technical solutions, as well as improve the quality and speed of installation. Exhibit high stiffness in its design execution.
- Junction have a new square connecting thus being compatible with boxes from other manufacturers. They are made of halogen-free non-combustible material.
